Hindusthāni-Karnāṭaka Sangeet Recordings Collection

(including 78.r.p.m. formats)

from 1900 - continuously expanding from 1900 – to approx.1990.

Collection after 1990 only on the basis of very selective criterias

The list is just a partition list in ABC format, in which search option by performer name is convenient.

not detailed only schematic representation:

the folder names are not yet official, they are my private mythological categories for now, in the folder of each performer the unique video too included when this was possible to collected.

Sorry, but for the time being, the original names and expressions are not temporarily published here in their official transliterated versions.

(The occasionally appearing (horto) clause only means that the relevant file has been restored by me)

Collection after 1990 only on the basis of very selective wannabe members of the traditional gharānā-s, only authoritative guru-shishyū-shagīrd parampara.
